London, UK (relocating from Seattle) • ghoshalayesha@gmail.com • +1 (424) 566-0548 • [linkedin.com/in/ayesha-ghoshal](https://www.linkedin.com/in/ayesha-ghoshal)

EXECUTIVE SUMMARY

Results-driven Product Manager with deep expertise in building invoicing products, B2B payment workflows, and multi-stakeholder systems at Amazon and growth companies. Led end-to-end product strategy for a global invoicing product deployed across 5-6 countries, serving tens of thousands of business users. Designing invoice creation experiences, real-time validation engines, and reconciliation tools that reduced rejection rates from 37% to under 10% and cut processing time by 96%. Defined a scalable invoicing product framework adopted by 15+ countries, while also building integration platforms and AI-powered automation infrastructure delivering \$37M+ in combined business impact.

SKILLS & TOOLS

INVOICING & B2B PRODUCTS: Invoicing Product Strategy | Invoice Lifecycle Management | B2B Payment Workflows | Multi-Country Product Deployment | Tax Compliance & Regulatory Product Design | Vendor/Business User Experience | Self-Service Product Design

PRODUCT MANAGEMENT: End-to-End Product Building | Product Strategy & Roadmap | Cross-Functional Leadership (Influence Without Authority) | User Research & Customer Discovery | Data-Driven Prioritization | A/B Testing & Experimentation | Stakeholder Management

DPMAIN EXPERTISE: Global E-Invoicing (Open & Closed Clearance Models) | Multi-Currency Operations | SMB & Enterprise B2B Products | Marketplace Platforms | Financial Operations Automation

EXPERIENCE

Amazon.com – Seattle, USA

2022 - Present

Sr. Product Manager – Technical

- **Platform Integration & Scaling:** Led org-wide initiative with VP-level buy-in to build and scale integration platform from 5 pilot suppliers to 1,000+ active users over 18 months, consolidating Whole Foods Market's (WFM) 5 legacy systems into Amazon's centralized vendor portal. Designed 3-layer platform architecture (Presentation → Transformation → Data) with a custom API suite (Item Registration, Mapping Lookup, Bulk Sync), achieving onboarding time reduction (8 weeks → 7 days), an 80%+ platform adoption rate, and \$9.6M of revenue impact. Platform framework adopted as template for future convergence initiatives.
- **Global Invoicing Product & Vendor Self-Service:** Owned end-to-end product strategy for a vendor-facing invoice creation and submission experience deployed across 5-6 countries (KSA, Poland, Egypt etc.), serving tens of thousands of business users. Designed real-time pre-validation engine (tax compliance checks, government stamp authentication, mandatory data verification) with self-correction capabilities enabling vendors to resolve PO and data errors before submission. Reduced invoice rejection rates from 37% to under 10%, cut processing time from 2 days to 2 hours for clean invoices, and contributed to \$25-30M annual reduction in vendor overpayments across deployed markets.
- **Global Invoicing Product Framework & Country Expansion:** Led product strategy for a scalable invoicing framework encompassing 7 pre-configured solutions across the invoice lifecycle (ingestion, validation, reconciliation, and reporting), adopted by 15+ countries. Defined configurable product architecture accommodating different regulatory models (open/closed government clearance, multi-format document standards, country-specific tax validation rules), reducing new country launch effort from 20+ to under 10 engineering weeks. Served as lead PM for 5-6 country launches, collaborating across 4 engineering teams and finance/tax/operations stakeholders globally.
- **3-Year Product Line Vision (Grocery Distribution Buying Transformation):** Authored a cross-cutting 3-year transformation strategy to evolve the buying workflow across 62 distribution centers processing \$6B+ in annual inventory and serving 570 stores via 150+ buyers. Defined the technology, process, and operational roadmap, including how different buyer personas should be matched to different tooling and workflows, and built the cross-functional case across engineering and operations leadership.

Growth (an Early-stage e-Commerce lending startup) – New Delhi, India

2018 – 2021

Product Manager

- **0-1 Platform Building:** Built SaaS lending platform from scratch, defining platform architecture, product roadmap, and GTM strategy. Onboarded 100+ SMB customers to platform infrastructure, disbursing \$7M in loans while achieving product-market fit in 1st year.
- **Platform Growth & Optimization:** Scaled platform adoption by 5x in 6 months through customer journey optimization and platform UX improvements. Led product strategy and cross-functional collaboration with engineering and marketing to drive platform growth.
- **Platform Pivot & Business Impact:** Led initiative to restructure platform lending channels in response to pandemic, achieving 20% revenue growth and 35% increase in loan disbursements through strategic platform prioritization and business model simplification.

EY (Ernst & Young LLP) – London, UK & New Delhi, India

2013 – 2018

Consultant

- Led smart city technology assessments and go-to-market strategies for government and telecom clients, managing stakeholder alignment and project delivery.
-
