EXPERIENCE

Amazon.com – Seattle, USA

2022 - Present

Sr. Product Manager – Technical

- **Platform Integration & Scaling:** Led org-wide initiative with VP-level buy-in to build and scale integration platform from 5 pilot suppliers to 1,000+ active users over 18 months, consolidating Whole Foods Market's (WFM) 5 legacy systems into Amazon's centralized vendor portal. Designed 3-layer platform architecture (Presentation → Transformation → Data) with a custom API suite (Item Registration, Mapping Lookup, Bulk Sync), achieving onboarding time reduction (8 weeks → 7 days), an 80%+ platform adoption rate, and \$9.6M of revenue impact. Platform framework adopted as template for future convergence initiatives.
- **Financial Operations Platform & Payment Reconciliation:** Built an automated reconciliation platform integrating Amazon's vendor payment systems with Mexican govt. tax portal, processing thousands of vendor payments monthly. Designed data extraction pipelines across 36 critical attributes from multiple source systems, improving data accuracy from 72% to 89% and delivering \$1.8M of annual cost savings through platform automation.
- **AI/ML Platform & Automation Infrastructure:** Architected and shipped AI-powered document processing platform (OCR + ML) automating 3M+ annual invoices. Designed template-based platform architecture reducing problem scope from 3.5M invoices to 80 unique supplier formats, achieving 80%+ accuracy (vs. 75% manual baseline). Scaled platform from 5 → 320 suppliers, delivering \$2M annual savings and 92% processing time reduction (48h → 4h).
- **Platform Architecture & Cross-Functional Influence:** Designed ID transformation system bridging WFM's UPC-based catalog with Amazon's ASIN architecture, built API suite to handle complex data translation, and led 15+ cross-functional stakeholders through strategic escalation and transparent negotiation to unblock critical platform dependencies.

Growth (an Early-stage e-Commerce lending startup) – New Delhi, India

2018 – 2021

Product Manager

- **0-1 Platform Building:** Built SaaS lending platform from scratch, defining platform architecture, product roadmap, and GTM strategy. Onboarded 100+ SMB customers to platform infrastructure, disbursing \$7M in loans while achieving product-market fit in 1st year.
- **Platform Growth & Optimization:** Scaled platform adoption by 5x in 6 months through customer journey optimization and platform UX improvements. Led product strategy and cross-functional collaboration with engineering and marketing to drive platform growth.
- **Platform Pivot & Business Impact:** Led initiative to restructure platform lending channels in response to pandemic, achieving 20% revenue growth and 35% increase in loan disbursements through strategic platform prioritization and business model simplification.
