EXECUTIVE SUMMARY

Platform Product Leader building integration platforms, API products, and multi-stakeholder systems at Amazon and growth companies. Has expertise in platform architecture, API strategy, and cross-functional leadership with influence without authority. Scaled integration platform from 5 pilot users to 1,000+ active suppliers over 18 months while consolidating 5 legacy systems, achieving 90% onboarding time reduction and \$9.6M annual revenue impact. Have a proven track record of designing reusable platform infrastructure that enables other products and teams to move faster.

SKILLS & TOOLS

PLATFORM ARCHITECTURE: Platform Architecture & Design | API Strategy & Development | Integration Platforms | Multi-Stakeholder Platforms | Systems Thinking | Platform Scalability (5 → 1,000+ users) | Platform Adoption & Growth | Financial Operations Platforms

PRODUCT MANAGEMENT: Cross-Functional Leadership | Product Strategy | Roadmap Development | 0-1 Platform Building | Platform Governance | Data-Driven Decision Making | Vendor & SaaS Integration Management |

TECHNICAL TOOLS: API Design (REST APIs) | Multi-System Integration | Financial Data Architecture | Event-Driven Architecture | Compliance Automation | AI/ML Platform Development (OCR, Document Processing) | Jira | Confluence | Figma

PLATFORM SPECIALIZATIONS: B2B Platforms | Financial Operations Automation | AI-Driven Workflow Platforms | Internal Operations Platforms | Compliance & Regulatory Platforms | Platform Onboarding | Platform Health Metrics

EXPERIENCE

Amazon.com – Seattle, USA

2022 - Present

Sr. Product Manager – Technical

- **Financial Operations & Compliance Platform:** Built an automated reconciliation platform integrating Amazon's vendor payment systems with Mexican govt. tax portal, processing thousands of vendor payments monthly. Designed data extraction pipelines from multiple source systems, improving data accuracy from 72% to 89% and delivering \$1.8M of annual cost savings through platform automation. The platform eliminated 90-person manual processes while ensuring regulatory compliance.
- **AI/ML Platform for Financial Automation:** Architected AI-powered document processing platform (OCR + ML) automating invoice-to-payment workflows for 30% of 10MM annual invoices, accelerating financial close cycles by 92% (48h → 4h processing time). Designed template-based platform architecture achieving 80%+ accuracy (vs. 75% manual baseline), scaled from 5 → 40 suppliers delivering \$2MM annual savings. Platform architecture enabled automated journal entry workflows and reduced manual intervention in month-end close activities.
- **Platform Integration & Vendor Partnership Management:** Led cross-functional integration with Amazon Vendor Central platform team to build custom API suite (Item Registration, Mapping Lookup, Bulk Sync) enabling Whole Foods Market's (WFM) supplier platform. Negotiated with external platform teams through 4-5 sessions spanning 3-4 weeks, escalated strategically to Director level when roadmap conflicts emerged, and structured phased API delivery approach that balanced organizational constraints with platform delivery timeline. Integration enabled 15+ internal teams and 1,000+ external users to operate on unified platform infrastructure.
- **Platform Architecture & Cross-Functional Influence:** Designed ID transformation system bridging WFM's UPC-based catalog with Amazon's ASIN architecture, built API suite to handle complex data translation, and led 15+ cross-functional stakeholders through strategic escalation and transparent negotiation to unblock critical platform dependencies.

Growth (an Early-stage e-Commerce lending startup) – New Delhi, India

2018 – 2021

Product Manager

- **0-1 Platform Building:** Built SaaS lending platform from scratch, defining platform architecture, product roadmap, and GTM strategy. Onboarded 100+ SMB customers to platform infrastructure, disbursing \$7M in loans while achieving product-market fit in 1st year.
- **Platform Growth & Optimization:** Scaled platform adoption by 5x in 6 months through customer journey optimization and platform UX improvements. Led product strategy and cross-functional collaboration with engineering and marketing to drive platform growth.
- **Platform Pivot & Business Impact:** Led initiative to restructure platform lending channels in response to pandemic, achieving 20% revenue growth and 35% increase in loan disbursements through strategic platform prioritization and business model simplification.

EY (Ernst & Young LLP) – London, UK & New Delhi, India

2013 – 2018

Consultant

- Led smart city technology assessments and go-to-market strategies for government and telecom clients, managing stakeholder alignment and project delivery.
-
