EXECUTIVE SUMMARY

Senior Product Manager with 7 years of PM experience building B2B verification, reconciliation, and API platform infrastructure for financial operations at scale. Expertise in multi-source data accuracy, ML-driven verification with human-in-the-loop, and migrating critical B2B customers across technical paradigms without breaking adoption. Authored a 3-year transformation strategy for a \$6B+ operation, and led platform consolidation scaling from 5 pilot users to 1,000+ active partners while delivering \$13M+ in combined business impact.

SKILLS & TOOLS

VERIFICATION: Multi-Source Data Verification | Reconciliation Systems | Data Accuracy & Quality | ML Confidence Thresholds & HITL Design | Multi-System Integration | Identity & Attribute Matching

PRODUCT MANAGEMENT: 3-Year Vision & Strategy | Product Roadmap | Cross-Functional Leadership (Influence Without Authority) | Customer Discovery | Data-Driven Decisions | Experimentation | 0-1 Product Building

PLATFORM & API: Platform Architecture | API Strategy & Design (REST) | B2B Platform Migration | Self-Serve Onboarding | Multi-Stakeholder Platforms | Event-Driven Architecture

EXPERIENCE

Amazon.com – Seattle, USA

2022 - Present

Sr. Product Manager - Technical

- **Verification & Reconciliation Infrastructure:** Built automated reconciliation platform verifying vendor payments across Amazon's internal payment systems and external Mexican government tax portal, processing thousands of payments monthly. Designed multi-source data extraction pipelines mapping 52 critical attributes across disparate systems, improving verification accuracy from 72% to 89% and delivering ~\$15M in annual cost savings while reducing headcount from 17 to 6.
- **B2B Platform Migration & API Infrastructure:** Led org-wide initiative with VP-level buy-in to migrate 1,000+ external partners from 5 legacy systems onto Amazon's centralized vendor platform. Designed a 3-layer platform architecture (Presentation -> Transformation -> Data) with a custom REST API suite (Item Registration, Mapping Lookup, Bulk Sync), reduced partner onboarding from 8 weeks to 7 days, achieved 83%+ platform adoption, and delivered \$9.6M in revenue impact. Authored the 3-year platform vision, and led 15+ cross-functional stakeholders. Framework subsequently adopted as the template for future convergence initiatives.
- **ML-Driven Document Verification at Scale:** Architected and shipped AI-powered document processing platform (OCR + ML) automating 3M annual invoices. Designed template-based architecture with ML confidence thresholds and human-in-the-loop design for edge cases, achieving 80%+ accuracy vs. 75% manual baseline, and delivering \$2M in annual savings and reducing processing time from 48 hours to 4 hours (92% reduction).
- **3-Year Product Line Vision (Grocery Distribution Buying Transformation):** Authored a cross-cutting 3-year transformation strategy to evolve the buying workflow across 62 distribution centers processing \$6B+ in annual inventory and serving 570 stores via 150+ buyers. Defined the technology, process, and operational roadmap, including how different buyer personas should be matched to different tooling and workflows, and built the cross-functional case across engineering and operations leadership.

Growth (an Early-stage e-Commerce lending startup) – New Delhi, India

2018 – 2021

Product Manager

- **0-1 Platform Building:** Built SaaS lending platform from scratch, defining platform architecture, product roadmap, and GTM strategy. Onboarded 100+ SMB customers to platform infrastructure, disbursing \$7M in loans while achieving product-market fit in 1st year.
- **Platform Growth & Optimization:** Scaled platform adoption by 5x in 6 months by redesigning the customer onboarding and verification journey, reducing friction in the SMB application flow.
- **Platform Pivot & Business Impact:** Led initiative to restructure platform lending channels in response to pandemic, achieving 20% revenue growth and 35% increase in loan disbursements through strategic platform prioritization and business model simplification.

EY (Ernst & Young LLP) – London, UK & New Delhi, India

2013 – 2018

Consultant

- Led smart city technology assessments and go-to-market strategies for government and telecom clients, managing stakeholder alignment and project delivery.
-
